

SBFC: Charles D Scott Award

DEADLINE: January 30, 2023

Initiated in 1995, the Charles D. Scott Award recognizes individuals who have made distinguished contributions to enable and further the use of biotechnology to produce fuels and chemicals. The award is named in honor of Dr. Charles D. Scott, who founded the Symposium on Biomaterials, Fuels and Chemicals and chaired the conference for its first ten years. A member of the National Academy of Engineering and a past director of the American Institute of Chemical Engineers, Chuck performed research and development on many novel bioprocessing systems while at ORNL including high productivity bioreactors, immobilized microbes, enzymes in organic media, and coal bioprocessing.

The Charles D. Scott Award is presented each year at the Symposium on Biomaterials, Fuels and Chemicals. The nominees must have made one or more outstanding research contributions in biotechnology for the production of fuels and chemicals. These contributions should be of exceptional merit, reflecting independence of thought and originality that adds appreciably to scientific knowledge. Activities such as journal editing, organizing and chairing conferences, and serving scientific societies in official capacities may be considered when judging research contributions, but the most important factor in selecting nominees is research accomplishments. The recipient of the Charles D. Scott Award will receive a plaque and gratis registration for three successive annual meetings of the Symposium.

ADDITIONAL INFORMATION NEEDED

Please attach the following with this nomination form:

1. A 1-2 page letter summarizing the nominee's most significant and meritorious contributions to the area of biotechnology for fuels and chemicals. This letter should include:
 - a. a specific statement appropriate for inclusion on the plaque
 - b. three relevant references that describe the research mentioned in the letter
 - c. any previous awards or distinctions given to the nominee
 - d. names and addresses of two distinguished scientists who are familiar with the work of the nominee
2. A current copy of the nominee's Curriculum Vitae.

NOMINATIONS WILL ONLY BE ACCEPTED BY EMAIL. EMAIL COMPLETED FORMS AND ATTACHMENTS BY JANUARY 30, 2023 TO:
